

STOOK

Introducing Exciting Enhancements to Our Cloud Based Object Storage Service - Stook

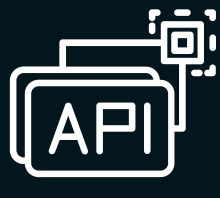

We're thrilled to unveil the latest enhancements to our **Object Storage service, "Stook"**. These updates are designed to elevate the service's reliability and robustness, providing you with an even better cloud storage experience.

Stook offers a comprehensive solution for securely storing all your data in the cloud, whether you require **cloud backups, cloud storage for web content, off-site disaster recovery, storage for cloud-native applications** or **data storage for AI & ML applications**. What's more, you can now utilize Stook as a standalone service, without the need to integrate it with a CDN.

Stook is built upon a highly reliable, scalable, and secure cloud infrastructure. With the Medianova Cloud Panel, you gain complete control and effortless management of your storage requirements.

Key Features & Benefits

S3 API Compatibility:

Stook offers a user-friendly, standard-based REST API fully compatible with Amazon S3, ensuring seamless and convenient integration with your AWS S3 compatible applications.

Robust Security:

Your data is our top priority. Stook is fortified with features such as encryption, authentication, IP restriction, and rate limiting, ensuring your data remains safeguarded.

Multi-Petabyte Scale Capacity:

Stook's massive storage capacity allows you to meet the demands of even the largest data-intensive applications.

High Data Transfer Speed:

With an average transfer speed of 5 Gbps, Stook ensures lightning-fast data retrieval and storage.

Bucket Replication:

Keep your data highly available and protected through bucket replication to cloud storage providers such as AWS S3, Google Cloud Storage, and Microsoft Azure Blob Storage.

Active/Active HTTPS Load Balanced Architecture:

Stook offers high availability, thanks to its active/active HTTPS load balanced architecture.

Real-time Monitoring:

Stay in control with real-time monitoring performed by our dedicated team using tools like PRTG and Prometheus.

No Egress Charges:

Say goodbye to unexpected egress charges. Stook ensures predictable pricing.

No Vendor Lock-In:

Enjoy the freedom to choose without worrying about vendor lock-in.

Easy Migration:

Migrate seamlessly from your existing solution to Stook.

Premium Support:

Our premium support is always at your service, accessible through private Slack channels.

Deployment Options

Private Network:

Private Network: Deploy Stook within your private network for enhanced control with a managed service option.

Cloud Deployment:

Take advantage of the cloud for flexible and scalable storage.

We invite you to take Stook for a spin and experience the ease, reliability, and efficiency of managing your data.

Feel free to reach us out at **sales@medianova.com** with any inquiries or for assistance.

We're eager to hear from you soon.
